Environmental Enforcement Section
P.O. Box 7611
Ben Franklin Station
Washington D.C. 20044

RE: U. S. v. N.L. Industries, Inc.
No. 91-CV-0018-JLF

Dear Mr. Holewinski:

With regard to your correspondence of November 5, 1993, and the EPA's intention to undertake remedial action at the sites identified in said correspondence, it is my understanding that the subcontractor retained by the government expects to remove soil from City property which is on the perimeter of the sites indicated. The government does not have the permission of the City of Granite City by which to trespass on City property, and certainly not to undertake remediation efforts. It is my further understanding that this matter has been brought to the attention of Mr. Brian E. Bradley and so I trust you will inform your client with regard to the above, and cease such activities.

Sincerely,

ECP:cmv
